

DUCT INSPECTION AND SEALING CERTIFICATION

As required by the 2010 Florida Energy Code Section 101.4.6.1.1

(TO BE ATTACHED TO AIR HANDLER)

Address of Install: _____

Manufacturer & Model # of Equipment: _____

Permit No.: _____

Contractor Name: _____

License #: _____ Date Performed: _____

I hereby certify that the ductwork at the above address associated with an HVAC equipment change-out has been inspected and sealed in accordance with the 2010 Florida Energy Code, Section 101.4.6.1.1 by the following allowable method(s):

Check all that apply:

☐ Where needed, all the existing and accessible ducts (minimum of 30 inches clearance) have been sealed using reinforced mastic or a code-approved equivalent seal.

☐ Ductwork was found to be located within conditioned space where further inspection and sealing is not required. (Exception 1, Section 101.4.7.1.1)

☐ Ductwork was inspected at the time of install and we found that all joints or seams were already sealed with an approved fabric and mastic. (Exception 2, Section 101.4.7.1.1)

☐ The duct system was tested and repairs were made as necessary. (Exception 3, Section 101.4.7.1.1)

Duct system tested by _____

(Company and/or individual) _____
